**Note:**

For crop protection products and fertilizers, you can use formulas. These formulas allow you to register a mix of multiple products/fertilizers that are used regularly.

A tool for faster registration.

## Resources in composition

Only resources from stock

Product	Amount of *	Unit *
12630 - Signum	0 , 000	Kilogram
14657 - Silwet Gold	0 , 000	Liter
➕ Add product		

**Note:**

Create a new mixture by entering a name, selecting an application method, and selecting multiple products/fertilizers.

If desired, you can also enter the fixed quantities that are transferred during registration. These can still be adjusted at the time of registration.

Multiple mixtures can be created.
